Domestic violence/dating violence protection orders	Temporary orders	Final orders
Number requested	1166	131
Number granted	726	200
Stalking protection orders	Temporary orders	Final orders
Number requested	123	20
Number granted	38	19

## Data Presentation and Interpretation

This data dashboard is based on data submitted by the STOP Formula State Administrator and reflects activities supported by STOP Formula subgrant awards during the 2022 calendar year.

STOP Formula subgrantees fill out progress reporting forms on an annual basis and submit those annual reports to the STOP Administrator in their respective state or territory for review. The STOP Administrator in each state or territory submits the annual subgrantee reporting forms to the Violence Against Women Act Measuring Effectiveness Initiative (VAWA MEI), a project located at the Muskie School of Public Service at the University of Southern Maine. Under a technical assistance award from the Office on Violence Against Women (OVW), VAWA MEI collects this subgrantee data from STOP Administrators, and then analyzes and compiles the subgrantee data dashboards for each STOP Administrator.

While reviewing the data in this dashboard, please consider the following:

- Percentages throughout the report may not add to 100 percent due to rounding.
- In some cases, due to rounding, <1% is used to indicate that percentages are smaller than 0.5%, but greater than 0%.
- In other cases, due to rounding, numbers may appear the same while their percentages are different.
- The overall number of victims served represents an unduplicated count; this means that each victim is counted only once by each subgrantee, regardless of the number of times that victim received services during each calendar year.
- Victims are reported only once for each type of service received during the calendar year. For example, the same victim might seek legal advocacy twice and seek victim advocacy three times. Subgrantees would report two counts of services provided (one legal advocacy service and one victim advocacy service) and one victim served.
- Because victims can only be counted once, they must be reported under only one primary victimization, regardless of how many times that victims received services during a calendar year. It is not uncommon for victims to experience more than one type of victimization (e.g., domestic violence and stalking, or domestic violence and sexual assault), but that fact is not reflected in the reported percentages of sexual assault, domestic violence, dating violence, and stalking victims served.

# General Grant Information - 2022 STOP Administrators Report OREGON

- Information for this report was submitted by 42 individual subgrantees for the January 1 – December 31, 2022 reporting period.
- 2 (4.8%) subgrantee(s) were faith-based organizations.
